

CS410 Weekly Report

Team Copper AI²

Performance Period: Saturday 9/27 - Friday 10/03

Summary of Group Accomplishments:

- ☐ This week the following tasks were completed:
 - The team continued working in iteration 2 of feasibility presentation based on the feedback provided on the first iteration.
 - The first round of questions was sent to ADS, and they answered back. Their responses were discussed during the team meeting and are considered for incorporation into the second iteration.
 - A second set of questions were also collected and sent to the ADS team.
 - Updates to the team website were made. This included adding the home page, team bio and pictures, updating the progress reports, and adding the feasibility iteration 1 deliverable, and adding problem and presentations sections.
 - Team roles were decided.
